Professional Summary

B.Tech Artificial Intelligence and Data Science student (2027 batch) with a foundation in Python and SQL. A motivated and adaptable learner with an interest in technology and data-driven solutions. Seeking an entry-level opportunity to apply my knowledge, learn new skills, and contribute effectively in a professional environment.

Education Details

Course Name	Institute Name	University / Board	Year of Passing	Score (%)	Course Type
B.Tech (Artificial Intelligence & Data Science)	Pranveer Singh Institute of Technology, Kanpur	Dr. A.P.J. Abdul Kalam Technical University, Lucknow	2027	66%	Full-time
12th (Class XII)	Sardar Patel Academy Public School	CBSE	2023	70.6%	Full-time
10th (Class X)	Sardar Patel Academy Public School	CBSE	2021	85.0%	Full-time

Projects Undertaken

- TeamTrack Pro — Full Stack AI/ML Platform** | [Link](#)

Jan 2026 – Apr 2026

 - Tech: Python, Machine Learning, NLP
 - Built a full-stack platform for project management and team analytics.
 - Implemented an AI-powered skill extraction feature to identify relevant skills from daily task logs.
 - Developed a candidate recommendation feature based on skills, ratings, and availability.
 - Integrated an ATS-friendly resume generator and an AI career assistant for skill-gap analysis.
- EduGen AI — LLM-Powered YouTube Study Material Generator** | [Link](#)

July 2026 – Sep 2026

 - Tech: Python, Generative AI, LLM, Hugging Face Whisper
 - Built a Generative AI app that converts YouTube lecture videos into short, structured study notes.
 - Extracted video transcripts and used Whisper to transcribe audio when captions were not available.
 - Split long transcripts into chunks and used an LLM to generate clear, exam-ready study material.

Strong Subjects

Object-Oriented Programming (OOP), Machine Learning

Technical Skills

Languages: Python, SQL
AI & ML: Machine Learning, Generative AI
Data & Visualization: EDA, Tableau
Framework: LangChain, FastAPI
Tools: Git, GitHub

Certifications

- Oracle AI Foundation Associate
- Oracle Cloud Infrastructure — Data Science Professional
- Google Cloud: Introduction to Generative AI Studio
- Infosys Springboard: Python

Internship Experience

- Data Engineering Intern, Decodelabs** | [Link](#)

Mar 2026 – Apr 2026

 - Tech: Python, Tableau, Pandas
 - Built a Python data preprocessing pipeline to clean raw data, handle missing values, and standardize categorical data.
 - Prepared the cleaned dataset for Tableau-based analysis and visualization.

Achievements

- Shortlisted for Round 2 of the Yukti Innovation Challenge (Govt. of India).
